

Accurate Stopping and Smooth Motion

- Pressing
- Pulling
- Injecting
- Inserting
- Processing
- Moving
- Lifting
- Rotating
- Affixing labels
- Gripping

Experience the reliability of SANMOTION, offering the comprehensive range of servo and stepper motors and high-performance control products to meet the exacting demands of automation systems, and OEM applications. Our solutions enable high-speed and high-precision movement of multi-axis synchronized motion, greatly improving productivity and processing quality.

Application Examples in Various Industries

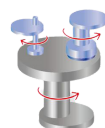

Food Machinery

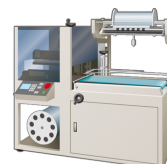

Chip Mounters

CMP Machines

Shrink Packaging Machine

FDP Manufacturing Machine

Parallel Robot Arm

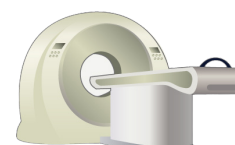

Industrial Robots

Machine Tools

Injection Molding Machines

CT Scan

Blood Analyzer

Local Engineering Support

- Product Selection
- Servo Initial Setup
- Technical Data Measurement for vibration, sound, temperature, waveform analysis
- 3D printing for prototyping custom mounting brackets & hardware

Motor Sizing

- Controller Programming
- Servo Parameter Setting

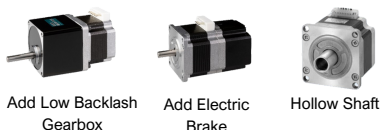

Customization and Value Add

- Harness, Cable and Connectors
- Mechanical Components Assembly such as Gearhead and Actuators
- Damper to reduce vibration
- Apply Epoxy for waterproof and more

Cables and Connectors

Add Low Backlash Gearbox

Add Electric Brake

Hollow Shaft

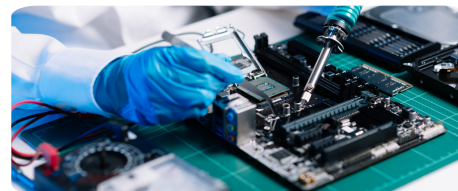

- Electrical Assemblies with Cabinets and Electric Components Mounted in Customized Sheet Metal Enclosure

Repair Service

Our factory-authorized repair center in Detroit offers comprehensive repair services.

- Repair OEM Equipment
- OEM Parts for Repairs
- Stocking Parts in USA
- Full Warranty
- Strictly adhere to SANYO DENKI Quality System
